## Roundup PROMAX® Herbicide Provides Consistent Weed Control

Roundup PROMAX® herbicide has the power to fight weeds, grasses and vines. With Monsanto's PROformance® surfactant technology, Roundup PROMAX® delivers more weed-killing power than generics. Additionally, with faster herbicide uptake, you'll see visual results in less than a week. No additional surfactant or additives are required or recommended.

Backed by the **True Blue Advantage**, Roundup PROMAX® offers a more concentrated formula, meaning you can do more with less and your dollar goes farther.

Ask your IT&O representative for more information about the benefits of Roundup PROMAX® in extreme heat.
